Help protect the birds of the Fleurieu

This year's focus is on the Hooded Plover, an endangered beach-nesting bird who needs our help due to the increasing disturbance and threat to its breeding habitat.

All proceeds from the 2014 'Birds of the Fleurieu' Calendar and Greeting Cards go towards the ongoing protection and research of the endangered and vulnerable wildlife on the Fleurieu.

This includes the continued protection of the White-bellied Sea-Eagle breeding territory and the habitat restoration project at 'SeaWings'.

All creatures are dependent on their environment and loss of habitat is the major cause of loss of species. Let's resolve to do all we can to preserve our unique environment so we can continue to enjoy its biodiversity, not least, its fascinating birds.
